Professional performance and quality in the right-sized package

The Sorna 25t™ autoloader offers industrial grade hardware, front-office friendly design and professional quality disc production, an ideal choice when high-volume production is not required. The 25t system comes standard with an Everest® 600 printer and, a fit for any medical environment.

Benefits

Powerful Printing

25t systems, with the world's best full-color and thermal monochrome disc printers, provide top-of-the-line printing and industrial-grade production in a front-office friendly package.

Rugged Durability

With positive air flow through a front-accessible filter, quick-release recorders, front-facing hard drive bays and separate printers, 25t systems are designed to be easily maintained in any environment.

Flexible Production

A three-bin carousel handles up to 150 discs, either one type of disc for uninterrupted production or up to three types of discs for productive flexibility. Disc output can be configured to the external bin or one of the internal bins behind a lockable door.

Features

- 150-disc rotating carousel for input/output
- 50-disc external output
- Front accessible air filter and positive airflow
- Two-line LCD status display
- Front accessible USB 3.0 port
- Integrated DiscWatch™ status light
- Internal lighting when the door is opened
- Two quick-release front-swappable recorders
- Front accessible hard drive bays
- Sorna Vertex® Software
- Rimage Software Suite
- Everest 600 printer
