Mini C-arm

Trusted Performance. Proven Reliability.

At Radon, we're committed to keeping imaging reliable, accessible, and cost-effective for hospitals, providers, and surgical teams. Our **Radon ReNueTM** program delivers high-quality pre-owned OEC C-arms that are refreshed through a proven, certified process and backed by the industry's most trusted service network.

When you choose **Radon ReNueTM**, you're choosing a partner dedicated to clinical uptime and dependable support from technicians who truly understand OEC systems.

Hassle-Free Certified Process

Every **Radon ReNueTM** system goes through 100-point inspection and replacement process that includes component testing, part replacements, and a premium cosmetic refresh. Each unit delivers a like new quality and a smooth predictable ownership experience.

All **Radon ReNueTM** systems include a one-year warranty, and optional multi-year service coverage to ensure your C-arm remains reliable long after installation.

Sustainable and Cost Effective Replacement

By extending usable life of high demand OEC systems, **Radon ReNueTM** offers a smart sustainable way to optimize budgets while supporting responsible device utilization. Providers benefit from the lower total cost of ownership, improved uptime, and consistent imaging performance every day.

Each **Radon ReNueTM** system is backed by our service network, deep parts inventory, and proven refurbishment process.
